NEW GENERATION OF SOFT BAGS

- 600 Denier polyester: used in areas with no risk of damaging the bag with a tip or any tool part. Provides flexibility and lightweight
- 1680 Denier polyester: used in areas with big risk of damaging the bag with a tip or sharp edge. Also in areas that need to be better protected against frictions or because they will stand big loads
- 100% Waterproof and anti slippery plastic hard bottom included in all the bags; provides big strength to the bag and protection against impacts thanks to the double stitching reinforcement
- HD PVC zips

Velcro straps for long tools:
Spirit levels, tubes and similar longer material can be stored using those straps with the quick velcro system positioned in both upper side of the bag

Soft grip handle:
Made of rubberized material. Provides a user friendly grip and isolates from touching any cold material

Measuring tape, card holder & phone pocket on one side

Hand saw special pocket:
With a zip and velcro strap for a quick storage, avoids any accident and / or lost during transport

HARD BOTTOM
100% waterproof
