

4750FB SERIES

NEW GENERATION OF SOFT BAGS

- 600 Denier polyester: used in areas with no risk of damaging the bag with a tip or any tool part. Provides flexibility and lightweight
- 1680 Denier polyester: used in areas with big risk of damaging the bag with a tip or sharp edge. Also in areas that need to be better protected against frictions or because they will stand big loads
- 100% Waterproof and anti slippery plastic hard bottom included in all the bags; provides big strength to the bag and protection against impacts thanks to the double stitching reinforcement
- HD PVC zips

ERGO TOOL MANAGEMENT SYSTEM
